5%

Only 5% of people in England and Wales have Lasting Powers of Attorney (LPA's) in place, it's not just you.

***15% of women and 8% of men died of dementia in 2016.**

It is the leading cause of death in women and the second for men.

A property and Financial LPA can be used on your instructions if you haven't lost capacity. Get the kids to do the hard work for you.

A LPA must be registered before use, no chance of being defrauded.

Your Health and Welfare LPA is the only way that someone else can make care decisions for you. Don't let social services choose who cares for you.

Anyone over the age of 18 can make LPA's, you are not too young.

A Health and Welfare LPA can let your attorneys choose to let you go with dignity.

Your attorneys are legally required to look after your best interests. They can't spend your money on a cruise!

Banks can (and do) restrict even joint accounts on loss of capacity of a single holder, don't take the chance.

You can express your wishes in your LPA's, helping your attorneys make the right decisions.

Your LPA's are essential for protecting your assets.
